

#### PROJECT TITLE

# ZOODIAGNOSTICS Ltd “Farm and companion animals’ diagnostics laboratory”

#### CLIENT

- Animal husbandry units
- Companion animal units
- Food industry
- Live animal export trade
- State & rural development organizations
- Veterinarians
- Companion animal owners

#### OBJECTIVES / ENTREPRENEURIAL OPPORTUNITIES

Zoodiagnostics Ltd aims to provide services for farm and companion animals. These services consist of high quality diagnostic health monitoring (veterinary and public health oriented), hygiene and prolepsis consultancy, animal welfare management, animal husbandry practices, animal product quality control and safety testing.

#### SOLUTION

Zoodiagnostics Ltd seeks to provide:

- Preventive and diagnostic veterinary medicine services.
- Zoonoses (animal diseases) and public health monitoring services.
- Welfare tailored services for farm and companion animals.
- Quality and safety “stable to table” consultancy services.

#### RESULTS

Zoodiagnostics Ltd expertise aims to serve both animal and human health and welfare by providing high quality customized services.
